

2017 Summer Educator Institute

Take Social-emotional
Learning School-wide!

Talk, share, and collaborate

Swap ideas, get support for your classroom challenges, and practice strategies with middle-school colleagues.

- Teach adolescents to manage their behavior
- Deepen their connection to school
- Increase their motivation and achievement
- Harness their social skills

Your 4 days of professional development include:

- A resource book with sample language, illustrated guides, and more
- A certificate for 28 hours of attendance
- Breakfast (continental) and lunch
- Optional graduate credit

Developmental Designs 1 (Grades 5-9)

Build a positive classroom and school community with a strong advisory. Learn new strategies to establish rules, practice routines, and uphold clear expectations all day long. The Developmental Designs approach helps teachers meet middle level students' needs.

What do Developmental Designs practices look like in a school?

A school implementing the Developmental Designs approach makes creating respectful, caring relationships a high priority. Students get to know each other across their differences, discover commonalities, and appreciate the richness each brings to the group. The Developmental Designs practices inclusive school community while teaching social and academic skills.

Murphy Elementary School

3539 W Grace St, Chicago IL
